

Energy Controls Group Helps Keystone Bingo Save \$77,110

Muncy, PA

Application: Commercial/Warehousing

Project Overview:

Keystone Bingo Supply, the region's premier provider of everything bingo just learned the power of a value engineered lighting upgrade provided by Energy Controls Group (ECG), the area's premier lighting renovation specialists.

Keystone Bingo Supply's warehouse and office building, approximately 40,000 square feet, were in need of lighting renovation to improve effectiveness and reduce energy costs. Keystone Bingo Supply opted for a full turn-key solution from ECG's certified lighting professionals and project managers. A unique combination of new and upgraded energy efficient lighting fixtures, and controls, offers substantial reductions in energy costs, all at the most competitive prices available.
